Transport Access Program

Harris Park Station Upgrade

START OF CONSTRUCTION NOTIFICATION

MAY 2017

The Transport Access Program is a Transport for NSW initiative to provide a better experience for public transport customers by delivering accessible, modern, secure and integrated transport infrastructure.

Project Overview

Harris Park Station is being upgraded under the Transport Access Program to provide a more modern, safe and integrated experience for public transport customers. The station's existing infrastructure will be upgraded to make sure the station meets the needs of users now and into the future, including:

- retention and refresh of the existing station concourse including the construction of a new family accessible toilet
- new ramps and stairs at the station entrances
- installation of new weather protection canopies on stairs, platforms 3/4 and station entrances
- installation of a new lift on platform 3/4
- upgrade of the path from Station Street East to the station and a partial upgrade of the path between Cambridge Street and the station
- provision of interchange facilities along adjacent streets including kiss and ride zones and taxi waiting facilities
- installation of sheltered bicycle racks at both station entrances.

Project timeline

Work on the station will begin over the coming weeks, with the establishment of site compounds, and hoarding set up on platforms commencing mid-May. Work will take place at Harris Park throughout 2017 and will be completed in mid-2018.

Upcoming weekend work

Between **8am and 8pm on Saturday 20 May 2017 and Sunday 21 May 2017**, work will take place during a scheduled Sydney Trains track work weekend. For enquiries regarding rail services during the weekend works, please contact the Transport Infoline on 131 500.

The station pedestrian bridge and the Station St East footpath will be closed to enable installation of construction hoarding. Pedestrians will be diverted to the Cambridge Street Bridge via Station Street West and Wigram Street.

Equipment to be used over the weekend includes hand tools and elevated work platforms, and there will be a number of delivery trucks arriving at the site over the course of the weekend.

This work is not expected to be noisy. Every effort will be made to minimise the impact on nearby residences and businesses.

Standard construction hours

Construction on the Harris Park Station Upgrade will be undertaken throughout the month during standard working hours, which are

- 7am to 6pm Monday to Friday, and
- 8am to 1pm Saturday

Notification of any works occurring outside these standard hours will be given prior to works commencing.

Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website found at: www.transport.nsw.gov.au/projects/tap/current-works/harris-park-station. For further information on the project, please call the Project Infoline on 1800 684 490 or email projects@transport.nsw.gov.au.

We apologise for any inconvenience and appreciate your cooperation during these important works.
