

# F6 Extension Stage 1

## Work on Gibbes Street Rockdale from Wednesday 23 January

The NSW Government is progressing with the development of the F6 Extension Stage 1 between the New M5 Motorway at Arncliffe and President Avenue at Kogarah.

Roads and Maritime Services will be carrying out geotechnical investigations at the corner of Gibbes Street and Bryant Street Rockdale. A map is included to show the location of the work.

These geotechnical investigations are being carried out to gather information about the ground conditions within the F6 Extension Stage 1 project area. The investigation work will involve drilling a borehole to extract soil samples using borehole drilling equipment. To carry out the work, light vehicles, drilling rigs and a trailer mounted generator will be in use. Heavy vehicles will not be used.

### Our work schedule

We will be working between **Wednesday 23 January** and **Wednesday 6 February** excluding public holidays, weather permitting.

Our work hours will be between:

- Monday and Friday, 7am to 6pm
- Saturday, 8am to 1pm.

The work will take around ten days to complete.

### How will the work affect you?

Our work may be noisy at times but we will do everything we can to minimise its impact.

Access to private property will be maintained.

To ensure the work zone is safe, Roads and Maritime will install temporary fencing and traffic cones around the work area for the duration of the drilling work.

There may be some impact on street parking near the site while the work is being carried out.

## Traffic changes

There will not be any traffic changes or changes to pedestrian access to footpaths associated with this work.

Thank you for your patience during this important work.
