

Local suppliers and contractors are invited to register to receive tenders for the new overtaking lane at Mirrool

The Newell Highway Program Alliance (NHPA) will deliver about 40 additional overtaking lanes over four years along the Newell Highway. The 60 kilometres of overtaking lanes will improve safety, reduce travel times and improve freight efficiency.

What are we doing?

The NHPA is inviting local suppliers and contractors to register their interest to be involved in the construction of a southbound overtaking lane at Mirrool, about 15 kilometres north of Ardlethan.

Initial work on this overtaking lane is due to start in November 2021 and is expected to take about seven months to complete. This project is in planning and the designs may change.

We are inviting local suppliers and contractors to register their interest to tender for a variety of goods, services and materials for the construction of the overtaking lane, including:

- machinery including graders, water carts, excavators, body trucks and side tippers, profilers, road brooms, bobcats and rollers
- materials including concrete, quarry material, precast pipes, signs and road furniture
- sealing works
- pavement stabilisation
- culvert extension works
- labour hire.

To register your interest as a supplier please email tenders@newellhpa.com.au.

Registration to receive tender packages closes by **midnight Friday 15 October 2021**.
