

Garfield Road West and Denmark Road – T2 Link– Submissions Report

March 2022

Transport for NSW is progressing with the planning for Garfield Road West and Denmark Road – T2 Link (formerly known as Denmark Link Road) project, a new local road linking Garfield Road West, Riverstone to west of Westminster Street Bridge, Schofields

The new link road will reduce congestion and traffic delays that are currently experienced at the Garfield Road railway crossing at Riverstone by providing an alternative route for light vehicles crossing the rail line.

In November 2020, Transport invited comments from the community and stakeholders on the Review of Environmental Factors (REF) and the concept design.

What we learnt

During consultation, we received 30 submissions on the proposal. The matters raised in the submissions relate to current traffic congestion at the rail level crossing, local traffic access and environmental impacts including noise and the relevant mitigation measures.

We have considered all feedback received from the local community and stakeholders and have prepared a submissions report to respond to the issues. The report is now available online at nswroads.work/denmarkrd

What happens next?

After considering all feedback, preparing detailed responses to the issues in the submissions report and a review of the objectives of the proposal, we have received planning approval and are currently progressing with the detailed design for the Garfield Road West and Denmark Road – T2 Link project.

The proposal will require some property acquisitions. The property acquisition area has now been finalised and property owners who may be impacted by this have been contacted.

We value the community's feedback and will continue to engage with the community and stakeholders as the project progresses.

Contact

If you have any questions or would like more information on Garfield Road West and Denmark Road – T2 Link project, please contact our project team on 1300 367 561 or nwga@rms.nsw.gov.au. For more information, visit nswroads.work/denmarkrd
