

Early works for Denmark Link Road extended until 28 February 2023

Community update | November 2022

Early works for the Denmark Link Road upgrade project started on 7 September. The works include preparing the project area for roadworks by clearing vegetation and upgrading the existing street light network by installing new street lights.

The wet weather and access requirements have caused delays in our construction activities. As a result, we expect our work to be completed by 28 February 2023 instead of 16 December as previously notified.

Transport for NSW acknowledges the Dharug people as the traditional owners and custodians of this land and pays respect to Elders past and present.

Our work schedule

Work started on Wednesday 7 September and will now continue until Tuesday 28 February 2023, weather permitting. Our daytime work hours are 7am to 6pm Monday to Friday.

How will the work affect you?

Our work may be noisy at times, but we will do everything we can to lessen the disturbance on surrounding residents and businesses. Any high noise impact works such as vegetation clearing will be undertaken during the permitted day work hours.

Traffic changes

Most of the work will take place in the road reserve. There will be temporary traffic changes during our work hours to ensure the work zone is safe. Please keep to speed limits and follow signs and traffic controllers' directions. Access to residential properties will always be maintained.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App.

Thank you for your patience during this important work.
