

Site establishment and utility investigations for Denmark Link Road from 23 January

Community update | January 2023

Transport for NSW (Transport) is continuing work on the North West Growth Area Road Network Strategy. Early works for Denmark Link Road upgrade project are now complete and we are moving into pre-construction work which includes utility investigations and the establishment of the site compound at the corner of Garfield Road West and Denmark Road. This work will begin from Monday 23 January.

The Denmark Link Road project includes constructing the missing local road connections between Garfield Road West, Riverstone and Bridge Street, Schofields.

Transport has engaged Burton Contractors to carry out construction of the project until 2024. We will let you know in advance when the major construction begins and what work will be involved.

Transport for NSW acknowledges the Dharug people as the traditional owners and custodians of this land and pays respect to Elders past and present.

What are we doing?

From Monday 23 January, we will be conducting utility investigation work on Denmark Road, Carlton Street, West Parade and Garfield Road West.

We will also be establishing our site compound at the south-eastern corner of Denmark Road and Garfield Road West during the day.

Our work schedule

We will be working on local roads from Monday 23 January, weather permitting. This will be carried out during the day and will be completed by Monday 13 February. Our work hours are 7am - 6pm Monday to Friday.

How will the work affect you?

Our work may be noisy at times, but we will do everything we can to lessen the disturbance on surrounding residents and businesses by using noise blankets where possible and turning off machinery when not in use.

Equipment used for these activities include heavy and light vehicles, saw cutter and a vacuum truck.

Traffic changes

Most of the work will take place in the road reserve. There will be temporary traffic changes during our work for the safety of motorists and our workers. Please keep to speed limits and follow signs and traffic controllers' directions. Access to residential properties will always be maintained.

For the latest traffic updates, you can call 132 701, visit [livetraffic.com](https://www.livetraffic.com) or download the Live Traffic NSW App. Thank you for your patience during this important work.
