## The NSW Government is improving accessibility at Faulconbridge Station

Have your say on the proposed improvements to Faulconbridge Station.

Key features include:

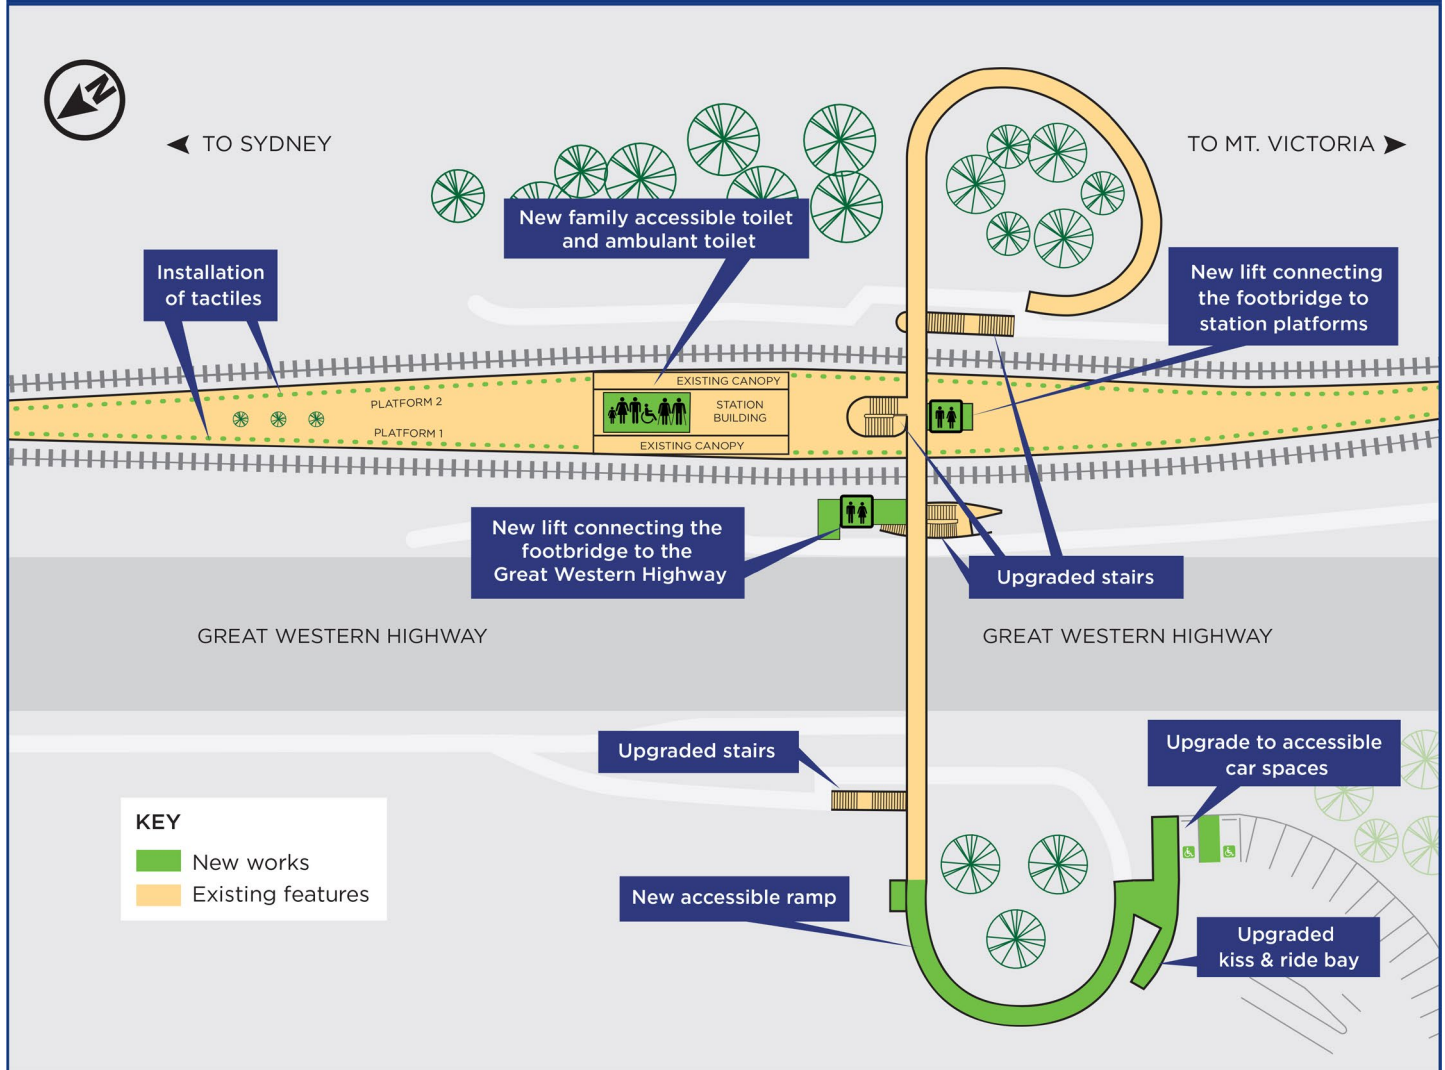

- two new lifts to access the station platforms
- a new ambulant toilet and a new family accessible toilet
- upgrades to the existing accessible car spaces
- upgrades to the pedestrian ramp connecting the commuter car park to the station footbridge
- upgrades to the kiss and ride bay in the existing commuter car park
- upgrades to station pathways, stairs and platforms
- upgrades to CCTV, lighting and signage.

## Transport Access Program

This project is being delivered as part of the Transport Access Program, a NSW Government initiative to provide a better experience for public transport customers by delivering accessible, secure and integrated transport infrastructure. As part of this program, the Faulconbridge Station upgrade would aim to provide a station precinct that is accessible to people with a disability, limited mobility, parents/carers with prams and customers with luggage.

Transport for NSW prepares a Review of Environmental Factors (REF) for public display and invites submissions.

Transport for NSW assesses and responds to feedback and prepares a submissions report/determination report with proposed conditions to minimise environmental impacts.

Transport for NSW determines the Proposal.  
*Conditions of Approval made available on Transport for NSW website.*

Construction commences subject to compliance with conditions.  
Subject to planning approval, construction is expected to commence in early 2020 and take around 12 months to complete.
