

# Transport Access Program

## Hawkesbury River Station Upgrade

### Project update

June 2020

The NSW Government is improving accessibility at Hawkesbury River Station. This upgrade is being delivered as part of the Transport Access Program, an initiative to provide a better experience for public transport customers by delivering modern, safe and accessible infrastructure.

Early work commenced in November 2019 and construction is expected to be complete in early 2021.

### Upcoming work

Work will continue in June and will include:

- excavations on the platform to construct footings for seats, drainage and bins
- continued construction of the family accessible toilet with plumbing and electrical work
- installation of platform drainage and start installation of the lift cars.

Equipment to be used includes hand tools, demolition saws, jack hammers and generators.

Work will be carried out during standard construction hours, which are **7am to 6pm Monday to Friday** and **8am to 1pm Saturday**.

We will notify nearby residents and businesses in advance if we need to work outside these times.

## Weekend work Saturday 6 June to Monday 8 June

From 6am Saturday 6 June 2020 to 9pm Monday 8 June 2020 (June long weekend), work will be carried out during a scheduled Sydney Trains track work weekend to enhance safety and minimise disruptions to customers and the community.

This work will include:

- installing the structural steel work for the lifts on the platform and Dangar Road
- installing the canopy steel work for the family accessible toilet
- installing pre-cast concrete lift landing slabs with screens
- installing roofs for the lift landings
- trenching on the platform for electrical and communication services
- constructing cable routes to supply power to the new lifts and tree removal
- installing, testing and commissioning an additional guard's indicator on platform 1.

Equipment to be used includes a 250-tonne mobile crane with four semi-trailers of equipment and counterweights, a 25-tonne Franna crane, three 2-tonne excavators, elevated work platforms, crane trucks, heavy vehicles, small dump trucks, generators and lighting towers.

No train services will operate and the station will be closed during this time. Please contact Transport Info **131 500** or visit **[transportnsw.info](https://transportnsw.info)** for more information about replacement bus services.

There may be some noise associated with this work and we understand this may be disruptive at times. We apologise for the inconvenience and will aim to minimise impacts by:

- turning machinery off when not in use
- using non-tonal reversing beepers on all machinery
- minimising the number of equipment operating at any one time
- conducting regular noise monitoring.

## Traffic, pedestrian and parking changes

To assist pedestrians and motorists, traffic control will be in place on Dangar Road during construction works and for delivery of materials. Access to the marina will be maintained at all times.

Due to the location of the crane and construction activities on the June long weekend, **the Dangar Road bus stop will be temporarily relocated to Brooklyn Road in front of the Anglers Rest Hotel**. Signs will be in place to direct bus passengers to the temporary stop.

There will also be restricted access to the Long Island Pier on the June long weekend as a crane will be positioned in Dangar Road for the lift installation. Traffic control will be located on Brooklyn Road and Dangar Road to manage and direct traffic.

**To enable this work, motorists need to remove their vehicles by Wednesday 3 June 2020 from the 15 car spaces (shown on the map overleap) in the Dangar Road car park.**

## Amenities

The male toilet is being demolished to accommodate construction of the new family accessible toilet. The female toilet has been converted into a unisex toilet while this work is under way.

## Keeping the community informed

The community will be kept informed with regular project notifications and information via the project website found at: [www.transport.nsw.gov.au/hawkesbury-river](http://www.transport.nsw.gov.au/hawkesbury-river).

For further information on the project, please call the Project Infoline on **1800 684 490** or email [projects@transport.nsw.gov.au](mailto:projects@transport.nsw.gov.au). For all urgent enquiries or complaints regarding construction activities, please call our 24-hour Construction Response Line on **1800 775 465**.
